

## **South Shore Regional School Board Launches Strategic Plan**

Bridgewater, NS – The South Shore Regional School Board officially launched its new Strategic Plan at a Special Meeting of the Board on Wednesday evening.

In the fall of 2013, the South Shore Regional School Board began the process of consultation to develop a Strategic Plan to articulate its long-term goals and priorities and provide overall strategic direction for the region. This was a comprehensive process and consultation with partners and public were included.

“One of the most important roles of the Board is to develop and monitor the implementation of the multi-year Strategic Plan with a budget that supports it. It is the basis for all decision-making that will ultimately set the course for the next four years at the South Shore Regional School Board,” said Jennifer Naugler, Board Chair.

“The new Strategic Plan is a result of the hard work of numerous stakeholder group representatives, Board Members and staff over the past year. Our next steps include establishing a work plan that will be reviewed annually with the Board to ensure we are meeting our targets in promoting student achievement and well-being,” said Geoff Cainen, Superintendent of Schools.

In the next few days, the South Shore Regional School Board’s 2013-2017 Strategic Plan document will be made available to the public on the School Board’s website.
