

Provincial Pre-Primary Program Field Trip Permission Form

Dear Parents and/or Guardians,

The Provincial Pre-Primary Program is committed to an inclusive experience with respectful diversity for each of our school's unique communities. The Pre-Primary Program believes that "every child should have opportunities to grow, learn, and develop a sense of belonging and safety within their families, communities, and society." (*Nova Scotia Early Years Framework, page 35*)

Our educators, with the children and families, want to discover, explore and build relationships with many people that live in our communities. To support building relationships with our community we will be going off site for nature walks and visiting local businesses to support learning outside of our indoor learning environment. In order for us to become active participants in our immediate school community we need your permission to leave school property.

Please complete this permission form to support your child/children becoming active participants in their school community:

I, _____ give _____
(Parent(s) and/or Guardian(s) Name) (Pre-Primary Program Site)

permission to take my child, _____
(Child's Full Name)

on short field trips and other outings as part of the active learning philosophy of the South Shore Regional Centre for Education Provincial Pre-Primary Program experience.

I understand that these explorations will take place on foot with a ratio of 1 teacher to 10 children. If the group size is larger than 20 children, the ratio of 1 teacher to 8 children will be followed at all times.
