## **Students Graduating to a New School & Their Bus Stop**

Every year, we carefully review and plan bus routes and timing for the new school year, so it is very important to check your bus stop information before the new school year begins.

It is important to know that each school has its own bus routes. When a student graduates to a new school, they will be using a different bus route. Since each bus route has its own set of stops, the stop that the student had been using may not exist on the bus route for their new school.

If your student is graduating to a new school, it is recommended that you re-apply for your bus stop so that it can be added to the new bus route, or if it can't be added, to get the information on the closest available bus stop.

To apply for a bus stop:

- Visit the transportation section of our web site @ <https://ssrce.ca/transportation/> and click on 'Bus Stop Change/Create Request Form' to download the fillable bus stop request form and submit it to our Transportation Officer.
- You can also contact our Transportation Officer via email @ [cvanbuskirk@ssrce.ca](mailto:cvanbuskirk@ssrce.ca) or via phone @ 902-541-8253.

**Bus route information is finalized by August 15. Our Transportation staff are available to help year-round if you have questions.**

**If your home address has changed or you have questions, please contact our Transportation Officer @ [cvanbuskirk@ssrce.ca](mailto:cvanbuskirk@ssrce.ca) or 902-541-8253.**
