

May 27, 2024

Dear South Shore Regional Centre for Education Community,

I am pleased to announce Angela Gladwin as the new, permanent Regional Executive Director of Education (RED) for the South Shore Regional Centre for Education (SSRCE).

I would like to thank School Advisory Councils across the region for contributing to the hiring process by providing input into the key knowledge, skills, and attitudes that the next leader should have. The feedback shared underscored the need for an educational leader who would focus on achievement and well-being of students and someone who understands the diverse needs of the school communities across the region. This input was a key part of the hiring process.

Angela's appointment as RED reflects her commitment to public education, students, communities in SSRCE and her experience as an educator and administrator in our province. Angela has worked at all levels as a teacher, administrator, program director and most recently as the Acting RED since Fall 2023.

Angela leads with a focus on improving achievement and well-being for all students. I am confident that she will maintain a relentless effort on ensuring each student is successful in our education system and that she will prioritize the collective efficacy of school teams in achieving this goal.

Please join me in congratulating Angela on her appointment.

Your truly,

Elwin LeRoux
Deputy Minister
Education and Early Childhood Development
